To Whom It May Concern:

The Bouncin' Bus is a wonderful resource to have in the greater Green Bay community, as it provides the perfect transportable and convenient activity for any children's event.

In October of 2012 we featured the Bouncin' Bus at Sweet Street, our children's indoor Halloween event. With an average attendee age of 5 years old, and over 7,000 people in attendance, having activities that are all-inclusive and safe are a high priority. The bus met both of these requirements, as well as being incredibly colorful and appealing to our young audience.

Maria Karas, the owner of the Bouncin' Bus, impressed us with her organization and professionalism – but without a doubt the most memorable thing about Maria is her passion and enthusiasm for promoting healthy and active entertainment for kids. Throughout the many events in our facility, it has become evident that what kids really love to do is run and tumble around! Maria reflects this in her creation of the Bouncin' Bus and has proven to be a big hit with our attendees.

We look forward to featuring the Bouncin' Bus in years to come at Sweet Street and welcome the opportunity to give recommendations regarding it.

Sincerely,
